

VLS 6600

Portable Video Laryngoscope

BEST IN CLASS VIDEO CAPABILITY

- Near-high definition images feature over 2x the resolution of competitive devices
- Patented IntuBrite White/UV LED combination for enhanced airway illumination
- Modular design allows custom component setup for any video laryngoscopy need, in any environment

FLEXIBLE COMPONENTRY

- Attachable handle-mounted monitor/DVR with tilt and 360 degree swivel capability

AFFORDABILITY

- Higher quality video system with more capability at less cost than comparable competitor devices

EASE OF USE

- No new training: Use familiar direct laryngoscopy techniques
- Video handles operate all IntuBrite laryngoscope blades: Original disposable, reusable and new high resolution video blades
- Move seamlessly from traditional direct laryngoscopy to video view
- "Instant On" video monitors for immediate functionality
- Easy care and sterilization of handle and blade components

VIEWING AND RECORDING

- Still picture and video recording capability via removable SD card for documentation and retention

RELIABILITY

- High tech, simple to operate components
- Built to withstand the rigors of daily use in challenging environments
- Connectors and cabling designed for stability, durability and convenient cleaning
- Monitor and components drop-tested to 48"

VIDEO BLADES

- Reusable VLS video blades available in pediatric VLS 2, adult VLS 3 and VLS 4A for difficult adult intubations
- Sapphire lens with proprietary anti-fog heating system

Portable Video

Laryngoscope

Technical Specifications

Classic Video Handle

Single Rechargeable 3.7 Lithium Ion 800 mAH Battery

Size: AA

Life: 2.5 Hours continuous use

Recharge: 6 Hours

VLS 6600 Handle Mounted Display

Video Aspect	4:3
Video Refresh Rate	30 FPS
Video Screen	TFT LCD
Video Resolution	320 x 240
Video Screen Size	3.5" TFT
Built in DVR	4GB SD Card
DVR Stills	JPEG
DVR Video	AVI
Case Material	Military Grade High impact Aluminum
Lithium Battery	1500mAH (Rechargeable)
Battery Life	2.5 Hours

Reusable Video Laryngoscope Blades

VLS 2	100 mm (L) Proximal 17 mm (H)	- Pediatric
VLS 3	136 mm (L) Proximal 25 mm (H)	- Adult
VLS 4A	145 mm (L) Proximal 27 mm (H)	- Adult Difficult Intubation
VLS 4000W		- Camera Wand for Disposable Sheath System
VLS 4020DS	145 mm (L) Proximal 27 mm (H)	- Adult Disposable Plastic Sheath (Polycarbonate)
Material	304 Medical Grade Stainless Steel	
Camera	CMOS	
Camera Window	Optically Clear Sapphire with anti-fog heating element	
Resolution	728 x 486	
Lighting	IntuBrite Patented Lighting System	
	- White Super Bright LED	
	- UV Blended LED
